

# Recent results on Heavy-Ion physics from CMS

*Thursday 10 July 2025 18:30 (20 minutes)*

Heavy-ion collisions at the LHC provide valuable insights into the behavior of nuclear matter under extreme conditions. The heavy-ion program offers a wide set of measurements with the goal of studying different properties of the quark-gluon plasma. This presentation gives an overview of recent heavy-ion results from the CMS experiment. In addition, the prospects of CMS in heavy-ion physics, including upcoming data and detector upgrades, will be discussed.
